MEDIATION ENDS SEATTLE STRIKE

Seattle, Oct. 5.—After four months' strike, Puget sound longshoremen are back to work today. The long struggle between the dock owners and the men came to an end last night, after a series of conferences throughout the day between employers, employees and Federal Commissioners of Mediation Wm. Blackman and H. M. White.

The peaceful adjustment of the trouble came as a surprise to the city, for earlier in the day Captain Gibson, president of the Water Front Employers' union, had applied to the sheriff for 1,000 deputies to guard the waterfront. A statement issued by Gibson indicated that the employers were determined to keep up the fight indefinitely and had broken off negotiations for a settlement. At 10 o'clock last night, however, Commissioners Blackman and White issued the following statement:

"The strike has been called off, arrangements satisfactory to all parties having been agreed to."

Neither side to the controversy would give out any details of the settlement.

The settlement embraces the entire Puget sound district. From 2,500 to 3,000 men will return to work today. Oregon and California ports were not affected.

PORTLAND NURSES BALK

AT CHAPEL ATTENDANCE
Portland, Oct. 5.—Scores of nurses in training at the Good Samaritan hospital are on strike today. They refuse to report for duty thirty minutes earlier, so as to have time for prayers.

The order requiring student nurses to start work half an hour earlier than usual, putting in the extra 30 minutes in chapel, was issued Monday. The girls were already excited about previous orders, which banned fancy coiffures, low collars and short sleeves. Many rebelled.

Must Have Lights

The ordinance providing for the use of lights and bells on bicycles is to be enforced. It is understood that this has come about because of the accident recently when a man was hit by a wheel and injured, perhaps for life. More or less danger is encountered also by riding on the sidewalks, especially after dark. The order caught the bicycle dealers off their guard, for many were sold out of lights, while others had one or two. Hurry-up calls were sent to Portland as soon as the notice appeared.

Calhoun Still Running

Geo. S. Calhoun, special representative of the Brownsville Woolen Mills company, who spent the past four days in the city with his family and business, left this morning for Yreka and other northern California points. Mr. Calhoun has been very successful with the Brownsville company, and his being with the company has given rise to the thought in some sections that he would probably not continue the run for county treasurer. Mr. Calhoun explains that his connection with the Brownsville people is for a few months only and that although he will be away from the county during the campaign, he is still a candidate and desires the support of his friends.

PETITIONING FOR COUNTY LIBRARY

Petitions for a county free library have been forwarded to all parts of the county this week.

The only way in which a county free library may be secured for Josephine county is by a representative petition from the entire county, including the city. The 300 names secured at the county fair was an excellent start. The petitions have now been placed in the hands of the people of the county and if the rural residents wish to secure free reading matter for himself and family, not only for the coming year but for all years to come, it is up to him to sign the petition and see that his neighbor does also.

As the tentative tax levy is made in November, the petitions must be completed during the present month and the subject presented to the county court at the November session.

The sum asked of the county (\$2,000) for the support of the library is the smallest sum asked by any county on the Pacific coast. By judicious management it is expected that excellent service can be given the county for this sum.

A list of the places in the county where petitions may be found will be published in Sunday's Courier.

NOTICE TO CONTRACTORS

Notice is hereby given that the County Court will consider bids for the construction of a court house for Josephine County, Oregon, to be erected at Grants Pass, Oregon, according to plans and specifications on file in the office of the county clerk at Grants Pass, Oregon, and at the office of E. MORE PRIZES FOR JOSEPHINE COUNTY

A. J. Green, who was in charge of the county exhibit at the state fair at Salem, returned last night. He says he made three entries in the horticulture plate class, winning first on U. D. Mihills' Spitzenberg apples, first on Elberta peaches, and second on Winter Banana apples from his own place. He was not able to make entries of pears because of the rule requiring 15 specimens of each variety for an entry. Josephine county's exhibit was scored low on account of the things lacking as required by the rules, such as fresh garden vegetables and small fruits, threshed grains in specified amount, etc., things which could have been exhibited if there had been time to collect them after the decision was made to send the exhibit. The low score was not on account of quality or arrangement, although the space allotted to the county was very poor. There is to be a change in the scoring and in the awarding of money for the county exhibits next year, giving a high percentage for diversity. Mr. Green says, knowing what he does now, he will guarantee to take an exhibit from this county next year that will win or take the money won for expenses. This year Josephine county fair closed so late it was necessary to send the exhibit by express, instead

of by free freight, and this was another reason why the exhibit was small. The date of the county fair should be put a little earlier next year, Mr. Green says, to guard against this.

ONE NORMAL NOT ENOUGH

Oregon has but one Normal School. This school is located at Monmouth. Excellent as is the work of this school it is utterly unable to supply but a small part of the need for trained teachers for the State.

Of more than 6,000 school teachers in the public schools of Oregon, but 15 per cent have been trained for their profession of teaching in Normal Schools.

It is a well established fact that our one Normal School cannot supply the needs of the entire state. That is why we ask for your work and vote for the proposed Eastern Oregon State Normal School at Pendleton, Oregon.

GIVE EASTERN OREGON SQUARE DEAL

Eight counties in the Willamette Valley have employed during the past five years, 203 teachers who have graduated from the Monmouth Normal as against 30 Monmouth Normal School graduates for the eight leading counties of Eastern Oregon.

During the past five years the attendance of students from nine Willamette Valley counties was 877 students as against 91 students from nine of the leading counties of Eastern Oregon.

Owing to the crowded condition of our one Normal at Monmouth and also the distance and expense of attending, students from Eastern Oregon are compelled to go to neighboring states to secure their training as teachers.

ONLY COSTS 4 CENTS PER \$1,000

The annual maintenance cost of the proposed State Normal School in Eastern Oregon amounts to but one 25th of a mill or 4 cents on a thousand dollars of taxable property. Isn't it worth this to have your children trained to become useful and productive citizens?

STRONG ENDORSEMENTS

Among those who strongly endorse the establishment of the proposed Eastern Oregon Normal School are Governor Withycombe, J. H. Ackerman, President of the Monmouth State Normal; W. J. Kerr, President of the Oregon Agricultural College; P. L. Campbell, President of the State University; Robert C. French, former President of the Weston Normal, and practically all of the leading educators of the State. J. A. Churchill, Superintendent of Public Instruction, voices the sentiments of those who are most familiar with the need of more adequate Normal facilities when he says:

"Oregon's greatest need for its rural schools is the teacher who has had full preparation to do her work. Such preparation can best come through Normal School training."

"I trust that the voters of the state will assist in raising the standard of our schools by establishing a State Normal School at Pendleton. The location is central, the interest of the people of Pendleton in education most excellent, and the large number of pupils in the public schools will give ample opportunity to students to get the amount of teaching practice required in a standard normal school."

All the above educators insist that a Standard Normal School must be located in a town of 5000 or more population and having enough grade pupils for teaching practice.

VOTE RIGHT

By voting YES for No. 308 you will help to give to the school children of Oregon the same advantages enjoyed by the school children of our neighboring states.

Vote YES for No. 308.
